

LISTING OF THE CLAIMS:

- A1. A barrier for securement to a floor comprising,
a barrier section having a plurality of horizontal support strips and a plurality of vertical support strips, each of said plurality of horizontal support strips being fastened to each of said plurality of vertical support strips to form a rectangular web structure, said at least one section having mesh fabric superimposed on said rectangular web structure and attached thereto, and
two supports having said barrier section coupled therebetween.
- A2. The barrier of claim A1 wherein,
at least one of said two vertical supports is a vertical standard having a base secured to said floor.
- A3. The barrier of claim A1 further comprising,
a plurality of cam buckles fastened to said plurality of horizontal support strips to form a plurality of loops around one of said two supports.
- A4. The barrier of claim A1 further comprising,
an advertisement banner coupled to said barrier section.
- A5. The barrier of claim A1 wherein,
said plurality of horizontal support strips are slightly elastic.
- A6. The barrier of claim A5 wherein,
said plurality of horizontal support strips are made of polyester.
- B17. A business method for a safety barrier company comprising the steps of,
selling advertisement space on a banner to be displayed at a construction site, and
applying said banner to a safety barrier used at said construction site.
- B28. The business method of claim B17 further comprising the step of,
renting said safety barrier to a contractor.

~~B39~~. The business method of claim ~~B28~~ wherein,

said step of renting is performed at a reduced fee in exchange for the privilege of displaying said banner.

~~B410~~. The business method of claim ~~B17~~ further comprising the step of,

reusing said safety barrier from a first project to a second project.

~~B511~~. The business method of claim ~~B17~~ further comprising the step of,

reusing said banner from a first project to a second project.

~~B612~~. The business method of claim ~~B28~~ further comprising the steps of,

said safety barrier company installing said safety barrier for said contractor, and

said safety barrier removing said safety barrier for said contractor.
